Appeal checklist and sample appeal letter

If a health plan receives a prior authorization (PA) request and denies coverage for the prescribed medication for your patient, you may appeal the decision. You can use the enclosed checklist to help ensure you have taken appropriate steps to appeal, and you can use or adapt the enclosed sample appeal letter if coverage for the prescribed medication is denied. This sample letter is provided for your guidance only.

Some health plans require an appeal letter along with additional documentation, such as:

- Appeal form, if provided by the plan
- Chart notes
- Test results
- Supporting clinical studies
- Peer-reviewed literature
- Prescribing Information for prescribed medication

It is important to note that supplying the above information for the appeal does not guarantee the health plan will provide reimbursement for prescribed medication. The enclosed checklist and sample letter are not intended to substitute for or influence your independent medical judgment.

Overview

There are numerous reasons why health plans may deny a PA for prescribed medication. Although the reasons vary by plan, some of the most common include:

- Errors in ICD-10-CM coding on the PA request
- Insufficient documentation on the PA request
- Health plan claims lack of medical necessity for prescribed medication
- Prescribed medication is not covered by patient’s health plan

If a PA for prescribed medication is denied, you can use the following checklist to ensure you have taken appropriate steps to appeal. Please keep in mind, just as reasons for denial vary, so do health plans’ requirements for the appeal. It is important to check with the patient’s health plan to ensure you have all the information you need to proceed with the appeal.
